

PLOT 91

Cullinan

MENS, HUSBANDS AND FATHERS

99 % Of social issues that we face in society today is because of the men being husbands, and father, standing up to their rightful position.

Power of the Father was born from that. We realise that we now need to start mentoring the men. The woman that are abused, the children that are raped, shows us that we need to get to the heart of the men.

By reaching the hearts of men, we believe we can change the destinies of families. Teaching men how to use their strength to love, and serve, protect and provide.

Plot 91 is a 1.7 hectare small holding where we have upgraded the infrastructure to mentor, uplift, and develop skills.

We have multiple workshops: Panelbeating, Metal Work, Wood Work, Autoshop, Kitchen and Media Centre. We have sleeping quarters for the men where they can stay with us for the duration of the 3 month program.

Men can then go out with their skill, and earn an income, with their dignity restored, and care for their families.
